

**Bucha
School**

**A new modern
school in Bucha,
Ukraine**

Join us – together we can
positively impact the future
of Ukrainian children

ABOUT BUCHA SCHOOL

The aim of the project is to help Ukraine to rebuild its destroyed education infrastructure and set a replicable standard for faster execution in other municipalities of Ukraine

A modern classroom with a ceiling of recessed linear lights and a projector. The back wall is decorated with a large, stylized circuit board pattern in gold and black. Several students are visible in the background. In the foreground, a person is walking past a row of desks with computers. A large whiteboard with various diagrams and notes is mounted on the right wall. Large windows on the left side offer a view of greenery outside.

BUCHA SCHOOL IMPACT

Bucha School aims to inspire the new education infrastructure era in Ukraine – providing modern spaces and innovative technologies for education, inclusivity, resilience, sustainability & energy efficiency.

Developments in June-August 2024

- Technical design is completed and submitted for expertise
- Geological and de-mining survey was completed for a 2.5 ha land plot on which the school will be constructed
- School technical design received the highest A energy class [certificate](#)
- The school project was placed on [DREAM platform](#)
- The Support Fund for Bucha School has completed the audit for FY2023. Full report is available [here](#)
- The Fund was vetted by GlobalGiving and started fundraising campaign on the [platform](#).

Bucha
School

Architecture & Design update

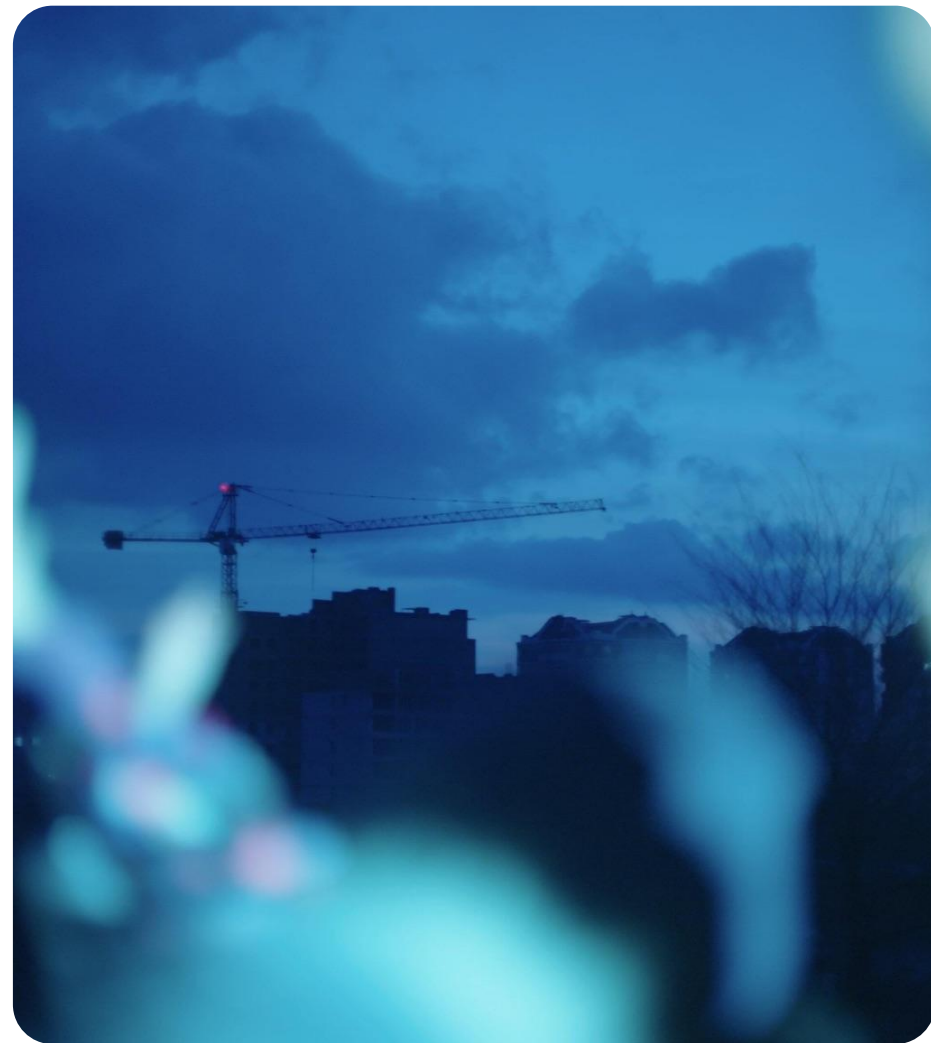

Preparation for Construction

Stage P documentation has been finalised and submitted for expertise. It is a final stage before submission of the documents for construction permit.

Project has been adjusted to completion in two commissioning stages in order to provide a faster access for those in need:

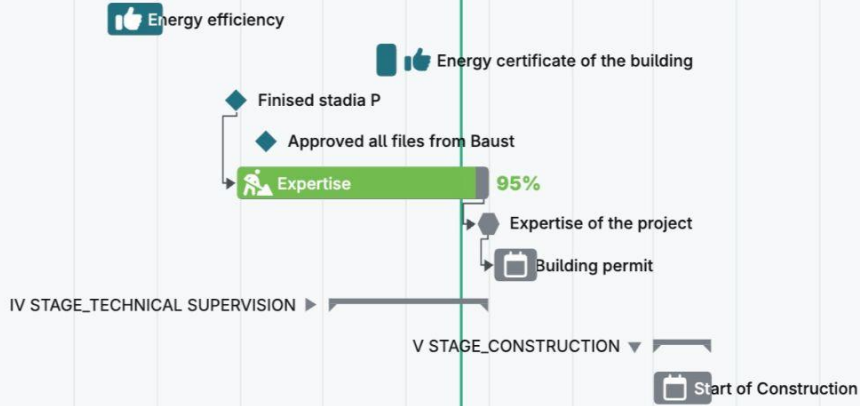

I stage - Shelter and Kindergarten

II stage - Primary & Secondary School

A ENERGY CLASS CERTIFICATE

On 25th of July, the highest standard A Energy Class Certificate has been received, marking Bucha Schools' commitment to a climate change mitigation agenda. The certificate is in compliance with the European Commission's Nearly Zero Emission Standard (NZEB)

Milestones achieved during the latest reporting period

- Urban analysis of Bucha city made in collaboration with 2L and Zvidzy Architects
- Workshop with Stakeholders in Bucha municipality
- Design Concept approved by the Fund and Municipality
- Visits of new schools in Lithuania and Ukraine and gathering of “good practices”
- Workshop with Ukrainian pupils in Vilnius
- Technical project prepared by Baust Architects
- Presentation and approval of the Project with Bucha administration
- Workshop with Lyceum No. 7 in Bucha about school interior solutions together with designers Martins Architects

A group of children are sitting on the floor, focused on drawing and writing on large sheets of paper. They are using various colored markers. The scene is a workshop or classroom activity. The children are of various ages and are dressed in casual clothing. The background shows more children and adults, suggesting a group setting.

HANDS ON SCHOOL WORKSHOP

After first workshop in December 2022 with Stakeholders, we were eager to hear what is a new school for the users of it.

So we asked pupils from Gravitas Schola in Vilnius what does a modern school definition means to them!

You can check the results [here](#).
